

Dear participants and friends of the GSBC,

In this edition of the GSBC newsletter you will find information on the recent developments at the Graduate School "Human Behaviour in Social and Economic Change" (GSBC), including upcoming courses, workshops and conferences as well as research highlights relevant to the researchers and doctoral candidates in the GSBC. The contents of this newsletter are as follows:

Achievements

All announcements (especially of publications and lectures) are based on information supplied to us.

LATEST NEWS

Grants and Offers

Award and mentorship for Rainer K. Silbereisen

The International Society for the Study of Behavioral Development (ISSBD) awarded the 2012 ISSBD Distinguished Scientific Award for the Applications of Behavioral Development Theory and Research to Rainer K. Silbereisen.

Rainer K. Silbereisen took over mentorship for Rukmen Sehmi who is a PhD student based in the Department of Quantitative Social Science at the Institute of Education, University of London. The mentorship is part of the Mentored Fellowship Program for Early Career Scholars, which is a joint project by the International Society for the Study of Behavioural Development (ISSBD) and the Jacobs Foundation. Rukem Sehmi plans to investigate psychological well-being of ethnic minority children in the Millennium Cohort Study.

New position for Martin Tomasik (CADS)

Martin Tomasik has left Jena and started a position as a post-doctoral research associate with Alexandra Freund at the Department of Applied Psychology: Life Management, University of Zurich, Switzerland. He now works in a research project funded by the Swiss National Science Foundation on "Readiness to Disengage from Motivational Conflict: Adult Age Differences and Implications for Emotional Experiences".

New Projects for Elena Semenova

The International Network "Selection and Deselection of Political Elites" (SEDEPE) invited Elena Semenova to participate in two publication projects. The first project deals with the recruitment of ministers in presidential systems. The editors of the book project "Selection of Ministers Around the World", Patrick Dumont (University of Luxembourg) and Keith Downing (National University of Australia) invited Elena Semenova to provide a book chapter on ministerial recruitment in Russia from 1991 to 2012. The book proposal was accepted by Routledge and will be published in 2013.

The second project focuses on political elites in multi-level countries. Elena Semenova was invited by Matthew Kerby (Memorial University of Newfoundland, Canada) and Csaba Nikolenyi (Concordia University, Canada) to contribute a chapter on governors in post-Soviet Russia. The first meeting of the research group takes place at the World Congress of Political Science in July 2012, and the second meeting will be organized in Montreal (Canada) in October 2012.

Elena Semenova and David Winter (University of Michigan, Ann Arbor) has started a new project on political psychology of political leaders. The project includes a number of articles on motivational aspects of leaders in a historical (Soviet and German politicians at the beginning of the World War II) and regional perspective (American and Russian parliamentarians: Motivation and Institutions).

A new project on networks and institutional development of Ukrainian parliament has been initiated by Elena Semenova and Tetiana Kostuichenko (Institute of Sociology, Kyiv-Mohyla Academy, Ukraine). The project analyses survival rates of Ukrainian politicians since the collapse of Communism.

Visiting Fellowship for Elena Semenova

Elena Semenova was awarded a Visiting Fellowship at the Munk School for Global Affairs at the University of Toronto. The Munk School for Global Affairs is one of North America's leading academic institutes for the study of the member countries of the European Union, the countries of the former Soviet Union, and Central and Eastern Europe. During her stay at the University of Toronto, Elena Semenova will write an article on parliamentary representation of businessmen in Central and Eastern Europe, give two presentations and supervise doctoral students.

New Projects for Nikolaus Knoepffler

Nikolaus Knoepffler launched two new research projects. The first is the DFG funded project "Der pietätvolle Umgang mit dem menschlichen Leichnam im Kontext von Bestattung und Beisetzung im Schnittfeld von Ethik und Recht". It is a joint research project with Tade Spranger from the Institute of Science and Ethics (Institut für Wissenschaft und Ethik, IWE) at the University of Bonn and the chair of Applied Ethics led by Nikolaus Knoepffler at the University of Jena. This project started on January 1st, 2012.

The second is the BMBF-project "Die Gestaltung des tiermedizinischen Fortschritts im tierärztlichen Berufsethos. Die Tierärzteschaft als Schlüsselgruppe in der Realisierung lebenswissenschaftlicher Forschung". Head of this research project is Peter Kunzmann and the project started on February 1st, 2012.

Katja Rost elected as board member of the European Public Choice Society (EPCS)

The European Public Choice Society aims at promoting scientific research on the economic and interdisciplinary analysis of non-market decision making processes and institutions, and to facilitate the exchange of work and ideas about it.

The most recent annual meetings were attended by approximately 350 people from around thirty countries who presented about 280 scientific papers.

Peter Walgenbach takes over the chair of the scientific commission organization within the German Academic Association for Business Research

The German Academic Association for Business Research pursues the development of business administration as an academic discipline at universities.

The main objective of the association is to foster research and education in business administration, as well as providing a platform for members, practitioners, and domestic and foreign institutions with similar objectives.

New DFG-project for Peter Walgenbach

The project "Multinational corporations, regional governance and human resources" is funded by the DFG and is a joint research project with Anne Tempel und Stefan Süß from the Heinrich-Heine-University Düsseldorf as well as international cooperation partner from Great Britain, Ireland, Canada and Spain.

Research professorship for Michael Fritsch

Michael Fritsch has been appointed a Research Professor at the Halle Institute for Economic Research. The IWH and Michael Fritsch intend to intensify their collaboration in the field of innovation research. Currently, they are working on a joint project (together with the Institute of Higher Education Research Halle-Wittenberg) "The Contribution of Universities to Regional Development under Conditions of Demographic Change" financed by the German Federal Ministry of Education and Research (BMBF).

New project for Gabriele Wilz (from May 2012)

The new research project "Telefonische Therapie für Angehörige von Demenzkranken. Praxistransfer einer telefonischen Therapie zur Unterstützung von betreuenden Angehörigen" (Tele.TAnDem.Transfer) is funded by the German Federal Ministry of Health (BMG "Zukunftswerkstatt Demenz"). The project is scheduled to run until April 2015.

Andreas Freytag is a member of Transformation Research Initiative (TRI) at Stellenbosch University (South Africa) and Senior Associate at Tutwa Consulting (Pretoria)

Transformation Research Initiative ([TRI](#)) is an interdisciplinary research team. Its members represent the disciplines of political science, sociology, economics, history and theology and they hail from eight countries located in globally diverse cultural regions. Their common quest is the pursuit of quality research on democracy.

Tutwa consulting conducts authoritative research into and analysis of complex policy and regulatory matters affecting business in emerging markets (<http://www.tutwaconsulting.com/>).

DAAD Funding Granted for a fourth Caucasus Workshop on "Disaster and Bereavement in Central Asia"

Professor Rainer Silbereisen and colleagues in the Department of Developmental Psychology have learned that the DAAD (German Academic Exchange Service) has granted funding for a new Caucasus workshop to be held in Tbilisi, Georgia, in October 2012. This is the fourth in a series of capacity-building workshops on Bereavement, Research and Practice that was instigated following the 2008 Russian–Georgian armed conflict and the urgent request from Georgian psychologists to the International Union of Psychological Science (IUPsyS), of which Professor Rainer Silbereisen is currently President, for support of their work with internally displaced persons.

The first two workshops were held in 2009 and 2010 at the University of Jena when approximately 30 participants, including senior and young scientists, as well as practitioners, came from Georgia, Armenia and Azerbaijan to spend one week meeting and working with international specialists in the field of bereavement and trauma. A special focus was placed on bringing young researchers into discussion with internationally reputed experts. Whereas these two workshops mainly focused on basic theory and practical training, the third workshop, which was held in Tbilisi, Georgia, in 2011, dealt with advanced in-field training and curriculum development. Participants again came from Georgia, Armenia and Azerbaijan, and faculty members were internationally renowned experts.

The fourth workshop "Disaster and Bereavement in Central Asia" will focus on the dissemination of theoretical and practical knowledge from the South-Caucasus region towards other countries in Central Asia such as Kazakhstan, Kyrgyzstan, and Turkmenistan. The workshop is part of the long-term plan to establish Georgia as a hub, connecting scientists and practitioners in the single Central Asia countries with international networks. Workshop participants will be drawn from the Central Asia countries, and faculty members will again be of the highest international repute and from across the world. The workshop will take place during the second week of October (exact dates are to be confirmed) and will be held at Tbilisi State University, Georgia.

Support for the workshop series is provided by the German Academic Exchange Service (DAAD), the IUPsyS, and the University of Jena. Further background information on this workshop series and the role of the DAAD can be found by going to www.iupsys.net/images/announcements/1101-daad-rks-interview.pdf where there is the transcription of an interview between Professor Silbereisen and the DAAD concerning the Caucasus capacity-building workshop series.

For further information on the third workshop please contact Verona Christmas-Best via email: [verona.christmas\(at\)uni-jena.de](mailto:verona.christmas(at)uni-jena.de).

*Annual Meeting of the socio-scientific committee of the "Verein für Socialpolitik" 2012
(organized by Oliver Kirchkamp)
May 03-05, 2012, Friedrich Schiller University Jena (Senatssaal, main building, first floor,
R.127)*

Agenda

Thursday, May 3rd, 2012

12:30-14:00: Registration
14:00-14:10: Welcome address
14:10-15:50: Chair - Brenner, Thomas
14:10-15:00: Weimann, Joachim - Öffentliche Gut Experimente in großen Gruppen und mit realen öffentlichen Gütern
15:00-15:50: Tietz, Reinhard - Laissez-faire ist nicht fair - Durch Besteuerung zu konzentrationneutraler Vermögensbildung
15:50-16:20: coffee break
16:20-18:00: Chair - Pickl, Stefan
16:20-17:10: Neugebauer, Tibor - Forecasting security prices in experimental call-auction and double-auction markets
08:30-09:20: Engelmann, Dirk - Choosing how to Choose: Efficiency Concerns and Constitutional Choice
17:10-18:00: Grimm, Veronika - Reputation Formation in Economic Transactions
19:00-21:00: Dinner „Zur Noll“, Oberlauengasse 19, 07743 Jena
21:00-22:30: Guided city tour

Friday, May 4th, 2012

08:30-09:20: Engelmann, Dirk - Choosing how to Choose: Efficiency Concerns and Constitutional Choice
09:20-10:10: Orzen, Henrik - Strategic and natural risk in experimental market entry games
10:10-10:40: coffee break
10:40-12:20: Chair - Heinemann, Frank
10:40-11:30: Alós-Ferrer, Carlos - Preference Reversals: Time and Again
11:30-12:20: Breitmoser, Yves - Modelling choice and estimating utility in simple experimental games
12:20-13:20: lunch
13:20-15:00: Chair - Lehmann-Waffenschmidt, Marco
13:20-14:10: Riedl, Arno - Coordination in heterogeneous populations: On the focality of (multiple) fairness ideals
14:10-15:00: Bolle, Friedel - Passing the Buck
15:00-15:30: coffee break
15:30-19:30: Guided tour to 1806 memorial
19:30-21:00: Dinner „Im Sack“, Oberlauengasse 14, 07743 Jena

Saturday, May 5th, 2012

08:30-09:20: Leopold-Wildburger, Ulrike - Effects of bribes and leniency policy in negotiations
09:20-10:10: Achtziger, Anja - Die neuronale Basis von Belief Updating
10:10-10:40: coffee break
10:40-11:30: Schunk, Daniel - Expectations as Reference Points: Field Evidence from Experienced Subjects in a Competitive High Stakes Environment
11:30-12:20: general meeting

12:20-13:20: lunch

14:00-17:00: Hiking around the Kernberge

New EIC-Fellows

Thomas de Haan

My name is Thomas de Haan, I am 27 years old and from Holland. For the coming 2 years, I'll be a postdoctoral researcher at the GSBC-GK EIC group. Before I was a PhD student at the University of Amsterdam in the experimental economics department which was named CREED. Here at the GK my research focus will be mostly on experimental economics, specifically looking at how theories regarding knowledge sharing, R&D investing or creativity stimulation could be tested and enhanced using

laboratory experiments. One goal will also be to get many EIC-phd students involved in using the lab to tackle questions regarding innovation. Next to this I am open to many more topics and methods of research. I am looking forward to many "gemeinschaftliche Projekte" with the other members of the GSBC/EIC group.

Contact: [thomas.de-haan\(at\)uni-jena.de](mailto:thomas.de-haan(at)uni-jena.de)

Johannes Karl Herrmann

I studied economics (Volkswirtschaftslehre, diploma) at the Friedrich-Schiller University in Jena. My diploma thesis in 2010 was about the role of emotions in economic theory. I also studied abroad at the Högskolan Dalarna in Sweden. This march I started my PhD work at the graduation program "Economics of innovative change" here in Jena. I am now working at the GRETCHEN-project (Chair Prof. Cantner), which attempts to evaluate certain policy measures aiming at encouraging renewable energies both in production and consumption. My interest in this topic was induced by an internship at the Thuringian Ministry for Economics, Labour and Technology.

I have a number of topics I am generally interested in. The most prominent are economic policy, energy supply, psychology and institutional economics. I hope to have a good time with you at the GSBC-EIC in Jena and am looking forward to get to know all of you better over time.

Contact: [johannes.herrmann\(at\)uni-jena.de](mailto:johannes.herrmann(at)uni-jena.de)

Zahra Lotfi

I am Zahra Lotfi and born in Iran. I've joined GSBC-EIC as PhD student in February 2012. I completed my Bachelor degree with the major of Industrial Economic in 2007. Then I studied for Master of Business Administration (MBA) at University of Tehran and finished my master in 2010. My master thesis was about reviewing and commenting "marketing strategy" in one of well-known Iranian manufacturing company specialized in pumping. I did quantitative and qualitative research method for designing of upgraded marketing strategies. During my master degree I worked as a market researcher in one of the biggest pump producer.

I am planning to focus my research in "PATENT". I am interested in some subjects like, "Patent Pool" and "The relation between Patent and Pay-for-performance (compensation system)".

Contact: [zahra.lotfi\(at\)uni-jena.de](mailto:zahra.lotfi(at)uni-jena.de)

Abdolreza Momeni

I am Abdolreza Momeni and came from Iran. I have jointed GSBC-EIC University recently from February 2012 as PhD student. I completed my bachelor degree in industrial engineering and master degree in Master of Business Administration (MBA) from University of Tehran. My master thesis was about "Surveying of relationship between the Internal Marketing and External Marketing in PUMPIRAN Co, the well known pumping manufacturer in Iran". Furthermore I completed my research focusing on customer satisfaction, market attractiveness and after sales service during my thesis in this company. During my master study I gained a lot of experience when I worked at the Pars Oil and Gas Company (POGC) the biggest oil and gas company for developing of oil and gas fields. During my work in this company I promoted as deputy of manager of one of service departments. I am planning to do my further research on innovation focusing on disruptive technology.

Contact: [abdolreza.momeni\(at\)uni-jena.de](mailto:abdolreza.momeni(at)uni-jena.de)

Martin Kalthaus

My name is Martin Kalthaus and I'm working at the chair of Prof. Cantner since March. I'm part of the GSBC-EIC and the research project GRETCHEN (The Impact of the German Policy Mix on Technological and Structural Change in Renewable Power Generation Technologies). I studied Management and Economics at the Ruhr-Universität Bochum and graduated as Diplom-Ökonom in 2011. Furthermore, I studied abroad at the Aalto School of Economics in Helsinki and at the University of California, Berkeley.

I wrote my thesis about the interaction between renewable energy subsidies and environmental policies (Economic Evaluation of Subsidy Schemes for Renewable Energies and their Integration into the European Union's Emission Trading System). During my

studies I worked for different companies (Douglas Holding, Evonik Industries, PricewaterhouseCoopers, ...) on financial topics. In my further research I will analyze the innovative impacts of renewable energy subsidies and take a closer look at the interactions between these subsidies and how they induce innovations.

Contact: martin.kalthaus@uni-jena.de

Sven Kaden

I started in March 2012 as research assistant at the Chair of Prof. Cantner and as a doctoral student in the Jena Graduate School "The Economics of Innovative Change" (GSBC-EIC). Prior I received my diploma in economics at the Technical University of Dresden (TUD) in 2011. During my time at the TUD I focused my studies especially on industrial economics, international economic relations, economic psychology, statistics as well as econometrics. My diploma thesis was about modeling market transparency and how a more transparent market influences the decisions made by an exporting firm. Some of my research interests are topics like behavioral economics, game theory and evolutionary economics.

Contact: sven.kaden@uni-jena.de

STUDY PROGRAMME IN SUMMER TERM 2012

Theoretical Courses	
Organization theory	Peter Walgenbach
Basics of Economics of Innovation	Uwe Cantner
Evolutionary Economics	Ulrich Witt
Strategic Interaction in Innovation	Uwe Cantner
Methodological Courses	
Social Network Analysis	Holger Graf
Analysis of Pooled Time Series Cross-Section Data	Vera Tröger
Monte Carlo simulation methods: their basics and application	Ivan Savin

For further information or for course registration please see <http://www.gsbc.uni-jena.de/index.php?id=74>.

ANNOUNCEMENTS

5th GSBC Schools Day

May 31st, 2012 (13:45 – 17:45), Senatssaal (Main University Building), Fürstengraben 1, Jena

This year's topic of the GSBC Schools Day is "Migration". Prominent experts from four different disciplines will discuss this topic together with the audience.

- 13.45 Welcome Address (Uwe Cantner)
- 14:00 Sociology: **Donald J. Hernandez** (City University of New York)
- 14:50 Law: **Constanze Janda** (Friedrich Schiller University Jena)
- *Break*
- 16.00 Economics: **Silke Übelmesser** (Friedrich Schiller University Jena)
- 16:50 Psychology: **Colleen Ward** (Victoria University of Wellington)

At 18:00, you are welcome to join the Graduate Academy's "Sommerfest" (please register at <http://www.jga.uni-jena.de/sommerfest> until May 22nd).

You are cordially invited to this event!

2012 ESI Spring Workshop

Werner Güth and the Strategic Interaction Group (ESI) of the Max Planck Institute of Economics are pleased to announce the 2012 ESI Spring Workshop in Jena from June 4 - 6, 2012. The workshop will start on Monday, June 4, at 12.55. The end of the workshop will be on June 6 at 17.30. The workshop venue is the Max Planck Institute of Economics (Jena).

preliminary presentations

Monday, June 4

13:00-14:00

Edward J. Cartwright, University of Kent. "*Endogenous leadership in public good games*"

14:00-15:00

Anders Poulsen, University of East Anglia, "*Efficiency, Equality, and Labels in an Explicit Bargaining Situation*"

15:30-16:30

Astrid Gamba, MPI of Economics, Jena, "*tba*"

16:30-17:30

Zacharias Maniadis, Bocconi University, Italy, "*Is learning rational? Reexamining observational vs. experiential information*"

18:00-19:00

Topi Miettinen, Hanken School of Economics, Helsinki, "*Commitment in Bargaining - Some Laboratory Experiments*"

Tuesday, June 5

09:00-10:00

Fabrizio Mazzonna, Max Planck Institute for Social Law and Social Policy, "*tba*"

10:30-11:30

Heiko Rauhut, University of Zurich, "*Punishment and Reciprocity in Inspection Game*"

Experiments"

11:30-12:30

Sonja Vogt, University of Zurich, *"Can We See Inside? Predicting Strategic Behavior Given Limited Information"*

14:00-15:00

Wojtek Przepiorka, Oxford University, *"Who bells the cat?" An experiment with the sanctioning dilemma"*

15:00-16:00

Michael Mäs, ETH Zurich, *"The Emergence of Social Norms in Diverse Social Networks. A Formal Model and Experimental Results"*

16:30-17:30

Vincenz Frey, Utrecht University, *"Embedding Trust: A Game Theoretic Model for Investments in and Returns on Social Capital"*

17:30-18:30

Fabian Winter, MPI of Economics, Jena, *"You Are Who Your Friends Are - A study in Trust and Homophily"*

Wednesday, June 6

9:00-10:00

Alessandro Buccioli, University of Verona, Italy, *"tba"*

10:30-11:30

Marco Piovesan, Harvard Business School, *"tba"*

11:30-12:30

Sigrid Suetens, Tilburg University. *"tba"*

14:00-15:00

Enkelejda Havari, University of Rome II Tor Vergata, *"Childhood circumstances and adult outcomes: Evidence from SHARELIFE"*

15:00-16:00

Franco Peracchi, University of Rome II Tor Vergata, *"tba"*

16:30-17:30

Michael Roos, Ruhr University Bochum. The effects of fairness and real effort in unstructured bargaining

When you would like to attend the workshop we would like you to register latest till May 15 (<http://www.mpiew-jena.mpg.de/english/>). If there are any questions please do not hesitate to contact Sylvia Arnold (arnold@econ.mpg.de).

Symposium on Causality 2012 "Conditional and Direct Causal Effects"

*July 24 – 26, 2012, Altes Schloss Dornburg, near Jena, Großer Kaisersaal
(Subject to funding the travel expenses of speakers by the DFG)*

Aim of the symposium

The symposium is intended to sharpen our ideas and instruments for the analysis of conditional and direct treatment effects. Why does this aim seem to be warranted? In the last decades, analyses of causal effects have mainly focused on average total effects of treatments. This is appropriate if we are interested in the overall or total effectiveness of treatments in a population of subjects. How-

ever, conditional and direct treatment (intervention, exposition) effects are more informative and scientifically more interesting.

Focus presentations

- Thomas D. Cook (Northwestern University, Evanston, USA)
"Generalization"
- Imai Kosuke (University of Princeton, NJ, USA)
"The potential outcome approach to direct effects: Definition, identification, and sensitivity analysis"
- Andreas Klein (Universität Frankfurt, Germany)
"Conceptual difficulties of modeling mediation: Logical and statistical problems intertwined"
- Axel Mayer (Friedrich-Schiller-Universität Jena, Germany)
"Identification and estimation of direct and indirect effects"
- Susanne Rässler (Universität Bamberg, Germany)
"Conditional effects: How to use them in practice"
- Rolf Steyer (Friedrich-Schiller-Universität, Jena, Germany)
"The definition of total, direct and indirect effects and their identification"
- Felix Thoemmes (Universität Tübingen, Germany)
"The use of propensity scores in estimating direct effects"

Please see <http://www.metheval.uni-jena.de/projekte/symposium2012/index.php> to get up-to-date information about the Symposium.

6th Jena Summer Academy on Innovation and Uncertainty

As in the last 5 years, also this year about 60 PhD students will meet in Jena, Germany, where they will enjoy a unique opportunity to present and discuss their research with other peers and several renowned scholars in the field of Economics of Innovation, and Economics of Uncertainty.

The Jena Summer Academy on Innovation and Uncertainty will take place for the 6th time in Jena, between the 22nd July and the 5th August 2012. This event is jointly organized by the Max Planck Institute of Economics and Friedrich Schiller University, both in Jena, Germany. The Summer Academy consists of two parallel Summer Schools, one designed by the GSBC-EIC and one by the IMPRS-Uncertainty.

This year's topics include: innovation studies, creativity research, innovation policy, innovation and development, experimental economics, network analysis, basics of game theory, and microeconometrics. Just like in the last five years, the IMPRS Summer School will continue in the second and the third week of August to cover a number of specific topics related to how subjects behave under fundamental uncertainty.

The confirmed lecturers for this year are: Robin Cowan (UNU-MERIT and University of Strasbourg), Jan Fagerberg (University of Oslo), Gerlinde Fellner (University of Vienna), Hans-Georg Gemünden (TU Berlin), Bronwyn Hall (University of California, Berkley), Robert Jung (University of Erfurt), Luigi Mittone (University of Trento), Axel Ockenfels (University of Cologne), and Kai Sassenberg (Knowledge Media Research Center).

GSBC - Brown Bag Seminar (BBS)

In the upcoming term we will continue the GSBC-Brown-Bag-Seminar-Series. The fellows and the faculty of the GSBC have invited interesting guests and in some cases members of the GSBC will give lectures about their current research results:

Date	Speaker	Title
April, 18 th	Elena Semenova (GSBC)	Back in the USSR? Continuities in the formation of political elites in post-Soviet Russia
May, 2 nd	Daniel Albuquerque (International Centre for Management Training, Goa, Indien)	Ethical growth and its institutionalization in organizations
May, 9 th	Marco Guerzoni (University of Torino, Italy)	Cultural consumption in the rising music industry: explaining a cultural fad (with Massimiliano Nuccio)
May, 23 rd	Fons J. R. van de Vijver (Tilburg University and North-West University, the Netherlands)	Cross-Cultural Differences in Response Styles: Prevalence and Meaning (with Jamis He)
May, 30 th	Elif S. Durgel (Tilburg School of Social and Behavioral Sciences)	tba

Date	Speaker	Title
June, 06 th	Patrick Dumont (University of Luxembourg)	tba
June, 20 th	Morten Huse (Department of Innovation and Economic Organisation, Norwegian Business School)	tba
July, 11 th	Sonja Utz (NHL Leeuwarden and VU University Amsterdam)	tba

The GSBC-BBS takes place every Wednesday at 12.00 p.m. in room 102, Bachstraße 18k (east wing), Jena. Please see <http://gk.wiwi.uni-jena.de/index.php?SEM=GSBCB> to get up-to-date information about the GSBC-BBS.

Lectures and Workshops

- March, 21st - 22nd 2012, Workshop on Corporate Governance, "**Steuermann ... wer und wo bist du?**", organized by Bernd Hübner, Harald Jansen, Wolfgang Kürsten, Christian Lukas and Katja Rost, Großer Rosensaal, Fürstengraben 27, Jena.
- March, 22th 2012, Abendveranstaltung der Jenaer Energiegespräche, **Des einen Glück, des anderen Leid - zur Verbraucherfreundlichkeit im novellierten Energievertriebsrecht**, (organized by the Institut für Energiewirtschaftsrecht Jena - Kompetenzzentrum für Technik, Wirtschaft, Recht).
- April, 17th 2012, 04:00 pm, guest lecture by Lars P. Feld (Walter Eucken Institut and SVR), **Quo vadis, Europa?**, HS 6, Carl-Zeiss-Str. 3.
- April, 25th 2012, 14:00 - 15:30, JERS/MPI Visitor Seminar by Jan Fagerberg (University of Oslo, Norway), **Technological Dynamics and Social Capability: U.S. States and European Nations**, Bachstr. 18, building K, room 102.
- April, 25th 2012, 15:45 - 17:15, JERS/MPI Visitor Seminar by Koen Frenken (Faculty of Geosciences, Utrecht University (UU); School of Innovation Sciences, Eindhoven University of Technology (TU/e), NL), **Organizational Genealogy: A unifying framework for evolutionary economics?**, Bachstr. 18, building K, room 102.
- April, 27th 2012, symposium "Aktuelles GmbH-Recht" (organized by the Institut für Notarrecht, FSU Jena).
- May, 2nd 2012, 14:00 - 15:30, JERSeminar by Erik Stam (Utrecht School of Economics), **Institutions and Entrepreneurship**, Bachstr. 18, building K, room 102.
- May, 2nd 2012, 15:45 - 17:15, JERSeminar by Arno Riedl (Maastricht University), **Justice under uncertainty**, Bachstr. 18, building K, room 102.
- May, 7th 2012, 18:00-20:00, "ta ethika" talk by Oliver Müller (University of Freiburg), **Ethik und Synthetische Biologie**, Schillers Gartenhaus, Schillergäßchen 2, Jena.
- May 9th 2012, 15:15 - 16:45, JERS/MPI Visitor Seminar by Thomas Reydon + Markus Scholz (Leibniz Universität Hannover), **Searching for Darwinism in the Generalized Darwinism of evolutionary economics**, MPI seminar room V14, Max Planck Institute of Economics, Kahlaische Straße 10.

- May, 16th 2012, 14:00 - 15:30, JERSeminar by Giuseppe Delmestri (Johannes Kepler University, Linz), **From Cinderella to Princess. Radical Recategorization in Markets**, Bachstr. 18, building K, room 102.
- May, 16th 2012, 15:45 - 17:15, JERSeminar by Nicolas Jonard (University of Luxembourg), **The Co-evolution of Organizational Performance and Emotional Contagion**, Bachstr. 18, building K, room 102.
- May, 22nd 2012, 14:00 - 16:00, MPI Visitor Seminar by Tilman Boergers (University of Michigan), **tba**, MPI seminar room V14, Max Planck Institute of Economics, Kahlaische Straße 10.
- May, 23rd 2012, 14:30 - 16:00, JERSeminar by Dermot Breslin (University of Sheffield), **The Evolving Organizational Routine**, MPI seminar room V14, Max Planck Institute of Economics, Kahlaische Straße 10.
- May, 23rd 2012, 16:15 - 17:45, JERSeminar by Volker Böhm (University of Bielefeld), **Efficient Wage Bargaining in a Dynamic Macroeconomic Model**, MPI seminar room V14, Max Planck Institute of Economics, Kahlaische Straße 10.
- June, 6th 2012, 14:00 - 15:30, JERSeminar by Andrés Perea (Maastricht University), **Utility proportional beliefs in games**, Bachstr. 18, building K, room 102.
- June, 22nd 2012, 09:00-18:00, Meeting in the context of "Fortschritt im tierärztlichen Berufsethos", **Wandel im Mensch-Tier-Verhältnis**, Plenarsaal im Rathaus, Jena.
- July, 2nd 2012, 14:00 - 16:00, JERSeminar by Nir Halevy (Stanford), **tba**, MPI seminar room V14, Max Planck Institute of Economics, Kahlaische Straße 10.

We congratulate them and wish them all the best for their future careers.

Conference presentations by the GSBC fellows

Dario Montero on "A Taylorian Perspective on Social Change: Social Meanings and Cultural Identities"

Presentation at the International Conference on Humanities, Historical and Social Sciences (CHSS), Cairo, Egypt (October 21-23, 2011)

Mainstream social science has not been able to go beyond an individualistically framed study of socio-cultural phenomena and its processes of transformation. In this prevailing view, values and beliefs, meanings and identities, are always thought of as individual occurrences, and macro explanations are only reached by aggregation. In this paper, I want to argue for a new conceptualization of social change that explicitly takes into account irreducibly 'social' meanings, those which are not decomposable into individual properties. The concept of a 'social imaginary' set out recently by the Canadian social philosopher Charles Taylor illustrates the way to approach the study of change in this holistic fashion, thus providing a concrete alternative to atomistic accounts of change. I end up with a brief discussion on the dynamics of social change in general.

Elena Semenova on "Survival of Nomenclatura in Post-Soviet Russia"

Presentation at the international conference "Elite (Dis-)continuities in East and Central Europe since 1989/90", Jena, Germany (December 8-9, 2011)

After the collapse of the Soviet Union, new institutions emerged and changed a structure of opportunities for political elites. In some areas of society, post-Soviet Russia has attempted to distance itself from its Soviet heritage. A large proportion of former nomenclature members, however, survived the collapse of the Soviet Union and adopted themselves to new political and economical circumstances. The presentation pursues two aims. The first aim is to reveal structural and functional continuities in the formation of post-Soviet political elites. The second aim is to access the effect of the nomenclature background on political careers. Longitudinal data of recruitment patterns and career paths of post-Soviet parliamentarians, cabinet ministers and regional prime ministers

(governors) are used. This presentation contributes to a better understanding of structural and functional patterns of elite formation and circulation in post-communist countries.

Leonhard K. Lades on "Impulsive Consumption and Reflexive Thought: Nudging Ethical Consumer Behavior"

Grenzen der Konsumentensouveränität, Tagung in der Reihe Normative und institutionelle Grundfragen der Ökonomik, Evangelische Akademie Tutzing, March 7-9, 2012

The paper deals with impulsive consumption and highlights the roles that cognitive and motivational aspects of reflexive thought (namely self-control and self-image motives, respectively) play in intertemporal decisions. While self-control inhibits individuals from consuming impulsively, self-image motives can induce impulsive consumption. Based on recent neuroscientific findings about 'wanting'-'liking' dissociations, the paper presents a potential motivational mechanism underlying such impulsive consumption decisions. Utilizing the knowledge of this mechanism and acknowledging both cognitive and motivational aspects of reflexive thought, the paper expands on three libertarian paternalistic means to foster an ethical way of impulsive consumption: strengthening willpower, reducing impulsive desires to consume, and guiding impulsive behavior in ethical directions by making salient certain self-images that favor ethical consumption.

Dario Montero on "A Taylorian approach to the study of social movements: The student protests in Chile"

Presentation at the international conference "ALTERNATIVE FUTURES and POPULAR PROTEST XVII" organized by the Manchester Metropolitan University, Manchester, England (April 2-4, 2012)

David Snow's interpretive approach for the study of social movements relies on a series of assumptions which unfit this theory to properly understand the emergence of this kind of collective phenomenon. These assumptions refer to the preeminence of the individual and its interests over the group; an emphasis on cognitive/articulate interpretive processes; the active role of social movement organizational elite versus the rather passive role of the people (possible participants), among others. Following my own hermeneutical approach –recently developed based on ideas from the social philosopher Charles Taylor – I propose to understand the emergence of social movements as a result of a *clash of self-interpretations*, say, between the political doctrines and policies of the government in power and the aspirations of the citizenry.

Drawing on the example of the 2011 student protests in Chile, I want to argue that the outburst of a revolution or protest presupposes (and is expression of) a 'social culture' (or citizen culture) of self-rule, in the sense the historian Gabriel Salazar uses it, which in turn has to be understood as the fruit of a long historical process: as the product of a dialectics or tension between divergent self-interpretations.

Maria K. Pavlova presented the paper "Supportive family and community contribute to East Germans' willingness to be civically and politically engaged" (with Rainer K. Silbereisen)

2nd International Multidisciplinary Conference "Political and Civic Participation", University of Surrey, UK, April 16-17, 2012.

Given that psychological factors, such as scepticism about the effectiveness of collective action, are among the major obstacles for civic and political engagement in the former

East Germany, it is important to address its cognitive antecedents. In the present study, we drew on the developmental systems theory and the theory of planned behaviour to investigate the role of supportive social contexts for East Germans' intentions to be engaged. Participants were 1390 East Germans aged 20–40 surveyed by telephone in winter 2010–2011. We conducted multiple regression analyses to predict cognitive antecedents of civic and political engagement from self-report indicators of supportive family, friends and acquaintances, local authorities, and neighbourhood, controlling for socio-demographic variables, social capital, and past experience of civic and political engagement. Supportive family, supportive local authorities, and perceived good neighbourhood, but not supportive friends and acquaintances, were positively associated with intentions via attitudes, subjective norms, and perceived control concerning civic and political engagement. As our participants reported high support from their families but low support from local authorities and neighbourhoods on average, policy makers may be advised to focus on community asset building to foster civic and political engagement in the former East Germany.

Alexia Gaudeul on "Do Consumers Prefer Offers that are Easy to Compare? An Experimental Investigation" (with Paolo Crosetto)

8th annual Competition & Regulation Meeting on the topic of Behavioral Competition and Regulation, hosted by the Amsterdam Center for Law & Economics (ACLE), Amsterdam, Netherlands (April 20, 2012)

Consumers make mistakes when facing complex purchasing decision problems but if at least some consumers disregard any offers that is difficult to compare with others then firms will adopt common ways to present their offers and thus make choice easier. We design an original experiment to identify consumers' choice heuristics in the lab. Subjects are asked to choose from menus of offers and we measure the extent to which they favor those offers that are easy to compare with others in the menu. A sufficient number of subjects do so with sufficient intensity for offers presented in common terms to generate higher revenues than offers that are expressed in an idiosyncratic way.

Alexia Gaudeul on "The role of reciprocation in social network formation, with an application to blogging" (with Caterina Giannetti)

13th annual conference of the Association for Public Economic Theory, hosted by the Academia Sinica, Taipei, Taiwan (June 12-14, 2012)

This paper deals with the role of reciprocation in the formation of individuals' social networks. We follow the activity of a panel of bloggers over more than a year and investigate the extent to which initiating a relation brings about its reciprocation. We adapt a standard capital investment model to study how reciprocation affects the build-up of the individual social capital of bloggers, as measured by their links and interactions with others. This allows us to measure the role of content production and relationship building in the dynamics of online social networks and to distinguish between the social networking and media aspects of blogging.

Elena Semenova on "Elite Foundations of Russia: Personality and Institutional Structure"

Presentation at the XXIIInd World Congress of Political Science, Madrid, Spain (July 8-12, 2012)

The "great social experiment" of 1990-91 led to the rebirth of parliamentary democracy in Russia after decades of dictatorship. The new Russian parliamentarians, though not

necessarily complete political novices, were “newcomers” to the world of representative democracy. Learning by doing, the new MPs, as the actors in parliamentary democracy, had to define their roles as the elected representatives of the people and accustom themselves to the rules of the parliamentary “game”. During the 1990s, political scientists had hoped that the development of Russia would have been democratic. In the first decade of the 2000s, Russia has decayed to a consolidated autocratic regime according to the Freedom House Index. Political elites have actively contributed to this development. This proposal focuses on the members of the national parliament in Russia and through inclusion of personal factors aims at improving our understanding of parliamentary recruitment, legislative careers and personality of MPs. In this paper, personal characteristics such as motivation and perceptions of social context by Russian Members of Parliament (MPs) are investigated. The results of the analysis will be connected with general patterns of legislative recruitment and careers in post-Soviet Russia. This analysis focuses on the fifth term of the Russian Duma (2007-2011) and is based on 30 in-depth interviews with MPs and 10 expert interviews.

Elena Semenova on “Career Duration of Russian Prime Ministers (1991-2011)”
Presentation at the XXIInd World Congress of Political Science, Madrid, Spain (July 8-12, 2012)

This paper aims to analyze regional differences in career duration of Russian governors from 1991 until 2012. Russian federal system consists of regions which differ from each other in their competencies and rights in economic and regional politics. And, more specifically, Russian regions differ from each other in proportion of ethnic minorities living there. We expect that Prime Ministers in economically powerful regions stay longer in their office; and that career duration of Prime Ministers in ethnic regions lasts longer than in other Russian regions.

Maria K. Pavlova will present the paper “Cumulative disadvantage explains age divergence in well-being between employed and unemployed Germans” (with Rainer K. Silbereisen)

XXX International Congress of Psychology, Cape Town, South Africa, July 22-27, 2012. Her attendance at this conference will be partly supported by the ProChance Programme, University of Jena.

The negative impact of unemployment on subjective well-being (SWB) is well known, but the role of age in this relationship remains unclear. We suggest that the age-related duration of current employment status contributes to greater SWB among the employed and to lower SWB among the unemployed via the life-course mechanism of cumulative advantage and disadvantage. In particular, in the context of a stable labour market with low job mobility and high unemployment rates, as in Germany in the mid 2000s, some labour market entrants quickly achieve stable employment and start to accumulate related benefits, whereas the others are channelled into long-term unemployment, whereby their resources are depleted. With age, such cumulative processes may exacerbate the well-known gap in SWB between the employed and the unemployed. To test this proposition, we used cross-sectional data on employed ($n = 1382$) and unemployed ($n = 254$) Germans (age 18–42) surveyed in 2005. By estimating a moderated mediation model, we found that, among currently employed individuals, relatively older age predicted longer employment duration (tenure), which was related to higher SWB via higher income and higher perceived occupational security. Among currently unemployed individuals, age predicted longer unemployment duration, which was associated with lower SWB

via lower perceived social support. Thus, age was indirectly related to higher SWB in employed individuals and to lower SWB in unemployed individuals, which supported our expectations. Findings also shed light on the psychosocial advantages of long-term employment, which were not the polar opposites of the disadvantages of long-term unemployment.
