10th Thesis Workshop of the International Max Planck Research School on Adapting Behavior in a Fundamentally Uncertain World

For the 10th time, students and faculty met for the annual Thesis Workshop. The venue this time was Gut Gremmelin, a very nice location in Mecklenburg-Vorpommern. From March 6th till 10th 20 PhD students presented the status quo of their thesis, as well as one specific research project. The presentations ranged from the research idea or design of an experiment to already finished projects. This mainly depends on how long students are already in the program. Some of the presenters just started their PhD a few weeks ago; others are close to submitting their thesis. Feedback on the talks and progress of the theses was already given right after the presentations, but more intensively in the poster sessions that took place every evening.

The breaks and evenings were used extensively for discussions and students profited a lot from talking to faculty members with different research backgrounds as well as from discussions with each other. At the end of the workshop, six students received the final certificate of the IMPRS Uncertainty after having successfully completed all fulfillments of the curriculum.

The 11th Topics Workshop of the IMPRS Uncertainty will be held in Trento, Italy from September 25th till 29th 2017.

Jena Lecture Series in Economic Geography 2017 with Professor Andrés Rodríguez-Posé, London

May 9 and 10, 2017, Friedrich Schiller University Jena

The Chairs of Economic Geography (Sebastian Henn), of Microeconomics (Uwe Cantner) and of Business Dynamics, Innovation and Economic Change (Michael Fritsch) at Friedrich Schiller University in Jena (Germany) organized the Jena Lecture Series in Economic Geography 2017.

Professor Andrés Rodríguez-Posé was keynote speaker. He is Professor of Economic Geography at the London School of Economics, and President of the Regional Science Association International. Besides his outstanding research activities on regional development, development policies, and institutions, he is on the Editorial Board of a number of leading international journals in economic geography, human geography, regional science, and management.

In addition to the keynote speech a Workshop was organized, where participants had the opportunity of presenting and discussing their research with Professor Rodríguez-Posé and the other participants.

Background information: JLS – Jena Lecture Series in Economic Geography promotes the international exchange of ideas and knowledge in Economic Geography and related fields, especially between doctoral students and young researchers. Each year, an outstanding international researcher is invited to Jena to present and discuss current research questions in an evening lecture and two workshops.

New PhD student at the GSBC-EIC - Ekaterina Prytkova

I have recently started doctoral studies under the supervision of Prof. Dr. Cantner, after one visiting semester as an exchange Master student at the Friedrich Schiller University Jena. Initially, I came from St. Petersburg where I graduated from the National Research University Higher School of Economics having received a degree in economics and marketing. Now I am involved in a project dedicated to the understanding of productivity dynamics from an industrial evolution viewpoint and also developing my dissertation project on the modeling extensions of the replicator dynamics framework

Report for German Federal Government's Expertenkommission Forschung und Innovation

Since December 2015 Uwe Cantner is member of the German Federal *Expertenkommission Forschung und Innovation* (Expertkommission on Research and Innovation). This commission informs and advises the Federal Government with respect to most recent developments in research and innovation, the relevant institutional, legal conditions and economic conditions, the resulting influences on competitiveness, employment and growth, as well as the appropriateness and design of policy measures. The key findings of the commission's work in 2016 were handed over to the Chancellor Dr. Angela Merkel and the Federal Minister Prof. Dr. Johanna Wanka on February 15th 2017.

ANNOUNCEMENTS

Upcoming Workshops and Lectures

A large group of the GSBC-EIC will present papers on the 10th EMAEE Conference from May 31st to June 3rd 2017 at Strasbourg. More information on the conference and program can be found [here](#).

Michael Fritsch is organizing a Conference on “Evolution and Co-Evolution of Regional Innovation Processes” together with Andreas Pyka (University of Hohenheim) and Muhamed Kudic (University of Bremen). The Conference will take place on June 29, 2017 in Heilbronn, Germany. More information on the workshop can be found [here](#).

The Graduate College DFG-RTG 1411 'The Economics of Innovative Change' (GSBC-EIC) at the Friedrich Schiller University Jena and the International Max Planck School on Uncertainty jointly organize the 11th Summer Academy on 'Innovation and Uncertainty'. The Academy will last from 'July 23th to August 5th 2017'

in Jena and will be hosted by the Friedrich Schiller University and the International Max Planck School on Uncertainty. During the past editions, the Summer Academy on 'Innovation and Uncertainty' has proved to be one of the most inspiring gathering worldwide for what concerns the novel fields of economic research related to innovation, evolution,

uncertainty and experimental analysis. Over the years, the most important scholars provided the participants with outstanding lectures at the very frontier of scientific research. More information on the event can be found on the homepage of the [GSBC-EIC](#) and of the [IMPRS Uncertainty](#).

On 6 July 2017, the workshop on “Integration of international university students and highly skilled professionals: Challenges and opportunities” (in German) will be organized in Jena as part of the project “HiTH – Highly-qualified. International. Thuringia.” (funded by the European Social Fund). More information can be found [here](#). For registration, please contact Stefan Töpfer (stefan.toepfer@uni-jena.de).
